# About Us

Unique industrial services is a leading and renowned Service Provider and supplier in insulation services, hot insulation, cold insulation, industrial insulation, unique industrial services aim is maintain quality consistently, deliver always on time and at the right price. We give our best in whatever we do and do not believe in any shortcuts.

Recognizing the significance that a team plays in the working of an enterprise, we have selected a nimble crew of personnel which are appointed after rounds of interviews and proper tests of their expertise and skills. All the team-mates work in close synchronization with each other to avoid any kind of trouble that may occur in the functioning of our enterprise. Not only this, their capability to alter the services as per the specialized desires of our clients has made us a popular market choice.

## CLIENT SATISFACTION

Accomplishing the credibility and trust of our customers is our primary objective from the day we have developed our base in this competitive industry. Right from our on-time delivery, affordable costs and flexibility in services, we leave no stone un-turned to assure their quality. Additionally, thinking about the suitability of our customers, we provide several modes of payment which comprise payment via cheque, cash, online transfer, DD and much more.

## WHY INSULATION

Thermal insulation is a method used to reduce heat transfer, keeping hot things hot and cold things cold. It helps maintain temperature differences by slowing energy flow or reflecting heat, and is used in buildings and industrial systems.

## AREAS OF APPLICATIONS

- Ceramic Industries	- Chemical Industries
- Power Generation Plant	- Petrochemical Refineries
- Dairy and Cold Storages	- Textile Industries
- Pharma / API & Biotech Industries	- Solar Plants
- Shipping and Marine Industries	- Cement Plant
- Solvent Extraction plants and oil industries	- Fertilizer Plants
- Any Building Commercial & Residential / HVAC Systems	- Metal Industries

# Services We Offer Some Services Offer

Project services | Maintenance services

## INSULATION SERVICES

We have established a strong position in providing reliable insulation services, including Industrial, Hot, and Cold Insulation. Our skilled professionals deliver these services using advanced technology and high-quality materials, ensuring compliance with industry standards.

These services help create a protective barrier between internal and external environments, safeguarding equipment from external conditions and enhancing overall performance.

Energy saving

Client oriented

Hassle free

Eco-friendly

Cost effective

## HOT INSULATION

We are a leading provider of Hot Insulation / Heat Insulation services, designed to retain heat within a compartment and improve the efficiency and durability of machines and equipment. Our solutions are economical, durable, and capable of withstanding heavy pressure, making them ideal for various industrial applications. We offer customized insulation services as per client requirements, ensuring high performance, reliability, and excellent finish. Our expertise allows us to deliver industry-specific solutions that require minimal maintenance and maximize energy efficiency.

### FEATURES:

Long lasting

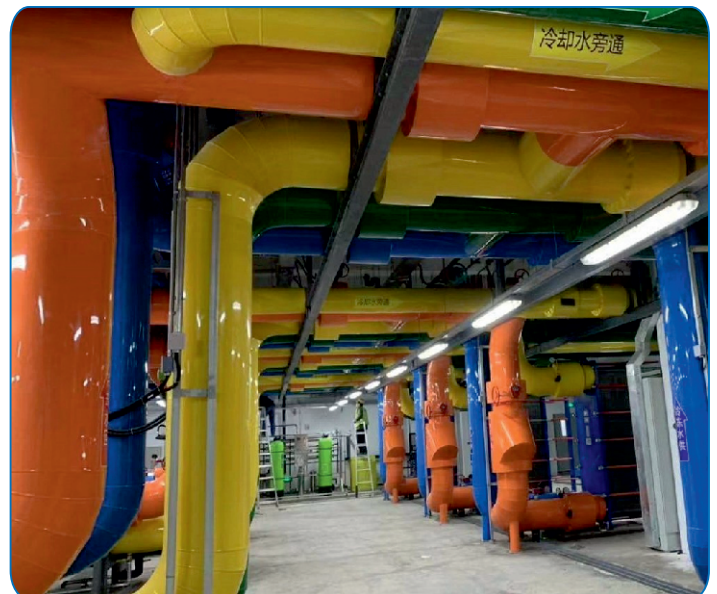

Easy and smooth service

Ensures complete satisfaction

Maintenance free

Customised as per specifications

Prompt execution

## COLD INSULATION

Leveraging on our vast industrial proficiency and knowledge of this domain, we are into providing a vast array of cold insulation. Accessible with us in different dimensions, sizes and stipulations, this offered material is highly demanded. In addition to this these are delivered by us in premium quality packing material to maintain their safety and reliability.

Our company has gained prominence in the providing Cold Insulation. We offer cold insulation in which thermal conduction is reduced or thermal radiation is reflected rather than absorbed by the higher temperature body. The expert team uses advanced technology and tools. To add on, these cold insulations are available in wide range and specifications as per customer requirements.

We offer to our client superior quality Hot Insulation and Cold Insulation. While Service Provider & Supplier of Hot Insulation and Cold Insulation from -40 degree centigrade to 400 degree centigrade, we make use of high grade raw material and latest technology. A team of dedicated professionals stringently tests on several parameters to ensure the flawlessness of these products.

### FEATURES:

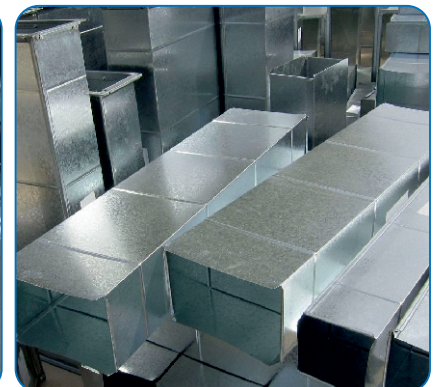

Reliable	High performance
High efficacy	Experts utilise the best technology
Highly durable	Cold insulation technique is widely used in the industries

## GI DUCTING

We undertake Hi quality Duct Manufacturing in GI / GP sheets for Air Cooling Machines.

Our team is well trained & experienced for giving our clients Top class job with minimum wastage & best quality work. We make ducts in 26 / 24 / 22 & 20 gauge sheets with precision cutting & leakproof jointings.

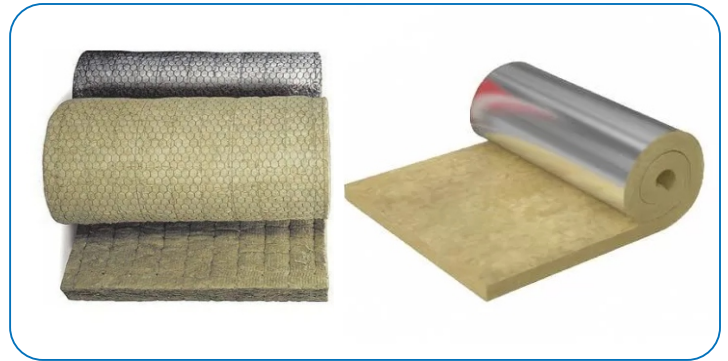

## MISCELLANEOUS SERVICES

Supply & fixing of only rock-wool mattresses of 100 kg/M<sup>3</sup> backed with GI wire net (thickness 40mm, 50mm, 75mm, 100mm),

Supply & fixing of aluminium foil, SS/ALLUMINIUM cladding,

Supply & fixing with glass cloth for sun protection on PIPELINE and duct insulation, supply & fixing of REXENE below,

Fixing of grill, fixing of HEPA box, HEPA filter, fixing of damper, supply & fabrication & fixing of 20/22/24 SWG ducting.

## GLASS CLOTH

Pipeline Glass cloth is a closed cell flexible elastomeric foam made from Nitrile Rubber factory laminated with 180 microns thick treated woven glass cloth. This material has low thermal conductivity and high water vapour diffusion resistance. It is CFC/HCFC free, dust and fiber free and ensures energy saving. This product meets insulation requirement in diverse fields such as the HVAC & R, Construction, Pharma, Hotel, Hospital, Process and Cold storage industries.

Available in plain and self-adhesive rolls (sheets) in 9, 13, 16, 19, 25, 32 mm thickness of 1000 mm wide rolls.
